

Japan's Finest Telescopes now available for American Astronomers

This complete GOTO 6" EQUATORIAL
was recently exported to
the TITAN OBSERVATORY in
Los Angeles.

Information can be obtained from Mr. Joseph Chubb, 230 W. 6th St., Los Angeles, Calif.

Amateurs who desire telescopic equipment of unsurpassed quality may now obtain it at low cost by importing directly from the manufacturer in Japan.

For 3.6" & 6" Equatorial Telescopes
L.S. Jacobs Co., 2540 Avenue U,
Berkeley, Cal.
Sole Importers for the U.S.A.

ESTABLISHED IN 1900, JAPAN'S
OLDEST AND LARGEST FIRM
SPECIALIZING IN ASTRONOMICAL
TELESCOPES

- **Achromatic Objectives**
for use in Astronomical work (examples,
mounted in cell)

3" C. A. 47.2" f. l.	\$ 61.50
4" C. A. 39.1" f. l.	\$ 137.00
- **Oculars**
Japanese sine barrel

Orthoscopic (angular type)	
4, 6, 9, 12.5, 18, 25mm	\$ 14.40 each
Kellner	
4, 6, 9, 12.5, 18, 25, 40mm	\$ 12.90 each
Huygen	
4, 6, 9, 12.5, 18, 25, 40mm	\$ 6.70 each
- **Star Diagonals**
for use in eye-piece holder 25mm
\$ 10.90
- **Erecting Prisms**
for use in eye-piece holder 25mm
\$ 11.90
- **Sun Projecting Screen Box** \$ 11.90

Japan's Finest Telescopes now available for American Astronomers

This complete
GOTO 6" EQUATORIAL
was recently exported to
the **TITAN OBSERVATORY** in
Los Angeles.

Mr. Joseph (John) 480 South Terrace Street, Los Angeles 1, California, owner of a Goto 6" telescope shall be pleased to give you his personal explanation with the Goto telescope.

Amateurs who desire Telescopic Accessories, Objectives, etc., of unsurpassed quality may now obtain these at low cost by importing directly from the manufacturer in Japan.

Astronomic Objectives

for use in Astronomical view telescopes,
mounted in sets

3" C.A. 47.5" F.L.	\$ 41.50
4" C.A. 39.5" F.L.	\$ 137.00

Diaphragms

4-1/2" x 1 1/2" 1/4" thick

Diaphragm (angular type)	
4, 5, 9, 12.5, 18, 25mm	\$ 18.40 each

Filters

4, 5, 12.5, 18, 25, 40mm	\$ 12.90 each
--------------------------	---------------

Prisms

4, 5, 12.5, 18, 25, 40mm	\$ 4.70 each
--------------------------	--------------

Star Diaphragms

for use in astronomical view telescopes	\$ 10.00
---	----------

Erasing Plates

for use in view glasses under 12mm	\$ 11.00
------------------------------------	----------

for projecting screen use	\$ 11.00
---------------------------	----------

(Prices including shipping cost)

The above prices also include the guaranteed export duties in making shipments. They should be deducted from the listed prices.

Japan's Finest Telescopes now available for American Astronomers

This is the 4" Equatorial Telescope which was recently manufactured and delivered to Mr. A. T. Graves of 9 Synswyck Road, Darien, Connecticut, famous industrialist and amateur astronomer, who placed a special order for its manufacture during his stay in Tokyo.

No corroding metals of any kind have been used and all plating has been applied with special care.

Moreover, the objective lens has been corrected using star image tests over a period of four months. This most easy-to-operate medium-size telescope, unsurpassed in quality, is now obtainable in the United States.

Achromatic Objectives

for use in Apertures: from 2.5 inches up to 10.0

3" C.A. 47.2" F.L. \$ 61.00

4" C.A. 59.1" F.L. \$ 127.00

Objectives Apertures are listed.

Orthoscopic (superior) 1.5, 2, 3, 4, 5, 6, 8, 10, 12, 15, 20mm \$ 14.40 each

eyepieces 2, 3, 4, 5, 6, 8, 10, 12, 15, 20mm \$ 13.00 each

Rayglasses 4, 5, 6, 8, 10, 12, 15, 20mm \$ 4.70 each

Star Diaphragms for use in eye pieces under 17mm \$ 10.00

Coating Plates for use in eye pieces under 25mm \$ 11.00

Set of Profiling Screw Set \$ 11.00

(Prices include tax, shipping and handling)

The above prices also include the shipping and handling charges in making instruments (2%) except the selected from the listed prices.
