

## Watsons' Prism Binocular Glasses

The best optical performance—brilliant definition, large and stereoscopic field.

Patterns for every purpose—the theatre, the race-course, marine or ordinary look-out.

## Watsons' Portable Telescopes

Light weight, great rigidity, perfect workmanship, unequalled quality in all respects.

Full particulars of the above are contained in Watsons' Catalogue of Binoculars and Portable Telescopes, post-free on request.
